Dear Trustees of the Calgary Catholic School District,

We have followed the news that the Board will engage in consultation regarding whether to welcome Alberta Health Services' HPV immunization program in Calgary Catholic schools.

I write to offer the services of medical experts from the University of Calgary Faculty of Medicine. I would be willing to organize a group of experts to present to, and answer questions from, Calgary Catholic School parents one evening this week or next in a centrally located school gymnasium.

As physicians and professors, we are aware that there is much information on the internet and elsewhere of questionable validity. We are part of the community and would be willing to help parents make informed choices for their children, based on current medical and scientific evidence.

We look forward to being of assistance to the parents in the Calgary Catholic School District and to hearing from you at your earliest convenience.

Yours sincerely,

Jon Meddings, MD FRCPC  
Dean, Faculty of Medicine  
University of Calgary
